PA 200 of 2012 Sec. 514 (a) (iv)

In 2012, 3,082 cases involved a separation from the parent or legal guardian. This resulted in 5,734 children being separated from the parent or legal guardian. The period of the separation of a child from the parent or guardian is not captured through the Children's Protective Services program; however, the status of these separated children at the close of FY 2012 can be determined. Of the 5,734 children who were separated, 506 had their cases closed due to the termination of parental rights, 500 had their cases closed and either returned home or to another planned living arrangement, and 4,728 children were still active to a foster care case at the end of the fiscal year.

PA 200 of 2012 Sec. 514(a) (v)

For the reported complaints of abuse or neglect by teachers, school administrators, and school counselors, 1,282 cases were classified as category I or category II and 13,398 cases were classified as category III, category IV, and category V.

PA 200 of 2012 Sec. 514(a) (vi)

For the reported complaints of abuse or neglect by teachers, school administrators, and school counselors, 211 cases resulted in separation of the child from the parent or guardian. This resulted in 458 children being separated from the parent or guardian. The period of that separation, up to and including termination of rights, is not captured through the Children's Protective Services program; however, the status of these separated children at the close of FY 2012 can be determined. Of the 458 children who were separated, 51 had their cases closed due to the termination of parental rights, 63 had their cases closed and either returned home or to another planned living arrangement, and 344 children were still active to a foster care case at the end of the fiscal year.

PA 200 of 2012 Sec. 514(b)

New policies related to Children's Protective Services including, but not limited to, major policy changes and court decisions affecting the Children's Protective Services system during the immediate preceding 12-month period are listed below:

CASE CONSULTATION

PSM 713-1; 713-10; 714-1; 714-4

Requirements for monthly case consultations between the CPS worker and supervisor are required to occur for each case.

Reason: Department of Health and Human Services CFSR recommendations and best case practice.

RISK ASSESSMENT

PSM 713-11

Risk assessment wording updated to match SWSS.

Reason: Policy consistency.

TERMINOLOGY

PSM 713-11

Language in policy and SWSS-CPS was changed from mental retardation to intellectual development disorder/delay.

Reason: Updating language to match federal legislation requirements as indicated in Rosa's Law.

PREVENTION

Prevention policy has been moved to the Children's Protective Services manual. DHS users can view historical policy by changing the effective date in the BRIDGES policy manuals applications.

Reason: Policy update.

AMERICAN INDIAN TRIBAL AFFILIATION

PSM 712-5

At intake, inquiries must be made with the reporting source to ascertain the tribal affiliation of a child or parent. Steps to be taken at intake are specifically outlined.

Reason: Indian Child Welfare Act.

CENTRALIZED INTAKE

PSM 711-2; 711-6; 712-3; 712-4; 712-5; 712-6; 712-7; 712-9

Policy update to include functionality of centralized intake.

Reason: DHS Modified Settlement Agreement.

INVESTIGATIONS FOR MANDATED REPORTS

PSM 713-1

The first reporting source listed on the DHS-3200 is considered the primary mandated reporter. Contact with this mandated reporter is required. However, the assigned worker may need to contact the other reporters listed to obtain additional information and evidence.

Reason: Best case practice.

SAFE SLEEP INVESTIGATIONS

PSM 713-1

Updated and enhanced safe sleep report and investigative requirements.

Reason: Best case practice.

MANDATORY SECOND OPINION

PSM 713-4

Updated requirements for a mandated second opinion medical assessment and examination and updated medical resource system.

Reason: Best case practice.

SOCIAL WORK CONTACTS

PSM 713-10

Social work contacts must include safety assessments and safety planning conducted by the worker that address the safety of the child.

Reason: Department of Health and Human Services CFSR recommendations.

SERVICES FOR SEXUAL ABUSE CASES

PSM 714-2

Delete 'Services for Confirmed Sexual Abuse Cases' section.

Reason: Child Abuse Prevention and Treatment Act Federal requirement.

RELATIVE CARE PROVIDERS AND SAFE SLEEP BROCHURE

PSM 715-2

Safe sleep brochures must be provided to relative care providers when CPS places a child with them and the child is under 12 months of age.

Reason: Best case practice.

FOREIGN NATIONALS

PSM 715-2

CPS is required to contact the national consulate office whenever a foreign national is removed from his/her home.

Reason: Align CPS policy with federal requirements.

INVESTIGATIVE REPORTS

715-4

Clarified CPS requirement to provide the completed DHS-154, CPS Investigative Report, to the assigned foster care worker

Reason: Best case practice.

HEARINGS

PSM 717-3

Updated CPS responsibility to hold a pre-hearing conference within 30 days of receiving the request. Added information for attorney general representation at administrative hearings.

Reason: Best case practice.

COURT ORDERED REMOVAL OF CHILDREN FROM HOME

PSM 715-2

A petition (electronically or otherwise) must be submitted to the Family Division of the Circuit Court. DHS staff must receive (electronically or otherwise) a written court order authorizing removal and placement, or authorizing the department to arrange for placement. Law enforcement may remove a child with or without a court order but CPS cannot receive custody of a child from law enforcement or remove a child from his/her home or arrange placement without a written court order authorizing the specific action. When DHS is contacted by law enforcement seeking the assistance of CPS in a removal of a child, CPS must immediately contact the designated judge or referee.

Reason: PA 163 of 2012.

EMERGENCY/EX PARTE ORDERS

PSM 715-2

Emergency removal and placement must only occur after hours and when the child is at substantial risk of harm or their surroundings present an imminent risk of harm. In all other situations, a preliminary hearing must be the venue for the court to make a determination regarding preliminary jurisdiction and/or placement.

Reason: PA 163 of 2012.

COURT DECISIONS

PSM 715-3

At a preliminary hearing, the court may order placement of a child in foster care if: custody of the child with the parent presents a substantial risk of harm to the child's life, physical health, or mental well-being; no provision or service or other arrangement except removal of the child is reasonably available to adequately safeguard the child from risk; continuing the child's residence in the home is contrary to the child's welfare; consistent with the circumstances, reasonable efforts were made to prevent or eliminate the need for removal of the child; and conditions of child custody away from the parent are adequate to safeguard the child's health and welfare.

Reason: PA 163 of 2012.

PA 200 of 2012 Sec. 514 (c)

The information required under section 8d(5) of the child protection law, 1975 PA 238, MCL 722.628d, pertains to information regarding families that were classified in category III. In 2012, the total number of cases classified in category III was 10,648. Category III cases have two distinct sub-classifications that refer to voluntary community service and close *or* refer to voluntary community service and monitor for 90 days. In FY 2012, 5,655 cases were referred to voluntary community services and closed and 4,993 were referred to voluntary community service and monitor for 90 days. The department reclassified 170 cases from a category III to category II and 32 cases from a category III to category I. Of the 32 cases, 21 involved separation of the child (ren) from the parent or legal guardian. Lastly, 4,038 victims were identified by the department to have more than one type of abuse and/or neglect in category III cases.

PA 200 of 2012 Sec. 514(d)

The DHS policy requires all complaints regarding children who have been exposed to the production or manufacture of methamphetamines be assigned for investigation. The Michigan Child Protection Law (CPL) (MCL 722.623 and 722. 628) requires DHS to refer to the prosecutor and law enforcement within 24 hours from receipt of complaints with allegations that indicate potential violations of the public health code involving methamphetamine (MCL 333.7401c). The CPL, Section 17, requires that a petition for court jurisdiction must be filed by DHS within 24

hours of determining a preponderance of evidence exists that a child has been exposed to or had contact with methamphetamine. The Department must also obtain a medical examination of all child victims and any other children residing in the household when a child has been exposed to or had contact with methamphetamine. The department has not made any changes to CPS policy regarding children who have been exposed to the production or manufacture of methamphetamines during FY 2012.
